Mr. Robert N. Winfree, an esteemed citizen of Chesterfield, and a member of Company B, Chesterfield Cavairy, died last Company B. Chesterfield Cavairy, died last evening at the residence of his brother-in-isw, Mr. William R. Lee, 18 south Lan-rel street, Richmond. Mr. Winfree re-ceived a wound during the late war which, it is thought, was the cause of his death. He was shot through his body while fighting near Richmond. For the last fifteen wars be was a death. isst fifteen years be was a devout member of the Methodist Church, and died fully resigned. Burial services will take place from his late residence, Hickory Hill, in

Chesterfield county, about ten miles from this city, this afternoon at 6 o'clock. Dr. W. W. Weisiger has returned from Old Point, and will leave for the White Old Polit, and Wile Park for the Walle Sulphur Springs Monday.

G. B. Peasly, Jr., who has been sick for the last ten days, was able to be at his place of business yesterday.

There were several cases in the Mayor's

Court yesterday, the most important of which-a felony case-was continued till

this morning.

The first meeting of the newly-elected City Council will be held the second Friday in this month. Mr. Perdue will doubtless be reëlected president. He has tilled this office very satisfactorily for a long while

The Poisoning.

The investigation at the Eastern Lunatic Asylum, at Williamsburg, goes to show that the recent poisoning of dogs on the grounds there was done with strychnine or something taken from the dispensary, and probably by one who was at that time an employé of the asylum. He wanted to kill the dogs, which had become troublesome, but after the great outery about the matter—or for some other reason—deemed it prudent not to discover himself to the authorities.

All the facts known will come out in a report which Detective Wren has submitted to the Superintendent, and which will be laid before the Board, which is now in session.

The closing exercises of Mrs. W. J. Peyton's music-class was celebrated July 1st, at the old pump-house, with a large attendance, in spite of the rain, all enjoying themselves by dancing all day. The following young ladies were awarded zold medals: Misses Annie Courtney (graduate), Minnie Swift, Mary Gary, May Braur. Ida Lee Allen Lee Alien.
Silver medals were awarded for rapid
improvement: Misses Lou Fidiedt, Linda
Bryant, Vick Gaines, Cary Adams.

John R. Booker, of Macon, Ga., writes:

In 1878 I was attacked by the most ravenous sort of cancerous sores, that ate great boles into my flesh and aftered rapidly over my body. I received the very best medical attention; was dosed with mercury and potash until I was so crippled with mercury and potash until I was so crippled with mercury and potash until I was so crippled with mercurial rheumatism that I could scarcely hobble about; my throat and mouth were budly ulcerated; my hair began to fall out. So wrecked was my general health that I became a physical ruin and my life was a burden. For a long time I was bed-ridden, and my suffering was so intense that I purged for death as a relief. I exhausted tha whole catalogue of patent medicines, in each case following the directions religiously. Each in turn seemed to acgravate the mahady, and none of them benefited me in any way. When life was apparently hopeless I commenced taking S. S. S. To this Specific I owe my life. In tendays I commenced improving, and in a short time was parfectly well. My hair has grown out thick; my health and strength have returned; the ulcers in my threat and mouth are entirely cured; my appetite has returned, and for the first time in years I enjoy my food. Every sore has disappeared from my body. I weigh as much as I ever did in my life, and am perfectly healthy in every way. The very germs of the cancerous affliction are deperfectly healthy in every way. The very germs of the cancerous affliction are de-stroved. Not only is the terrible mainly that was preying on my life, and which evary one pronounced incurable, entirely cured, but I am also resieved of the bad effects of the mercury and potash mixtures that I was fed on for years."
